## Verizon Wireless Gift To Edgewood

June 26, 2009

Cheryl Bini Armbrecht of Verizon Wireless (right) presented a \$9,500 Verizon Foundation grant to Pam Allen, director of Family and Community Services for Edgewood Children's Center in Webster Groves. Edgewood is using the funds to purchase the new computer software and wireless devices needed to create a virtual office so its Family and Community Service case managers may be more mobile and responsive to the immediate needs of clients.
